

THIS ONE HAS IT ALL

CONCEPTCAMPER 2021 // Innovative. Modular. Affordable.

With the Premium lightweight solutions from Vöhringer

Can lightweight interior solutions be implemented in an even more innovative, modular and yet affordable way?

DISCOVER ALL OF OUR LIGHTWEIGHT TECHNOLOGIES, BUILT INTO ONE FIAT DUCATO BASIC VEHICLE.

How can you implement the most diverse requirements and needs using the example of a basic vehicle?

Enter the world of Vöhringer Premium lightweight systems for the interior of motorhomes and caravans. We will show you the way to go and which creative solutions are feasible with the use of our lightweight materials.

Under the lead of Martin Ross, our chief developer, in our in-house Vision lab at Kehl and in Trochtelfingen / Engstingen, we present you the Vöhringer Concept Camper 2021.

MARTIN ROSS, OUR CHIEF DEVELOPER OF OUR VISION LAB, SHOWS HOW IT IS DONE.

Using the example of the in Europe very liked Basic model of the Fiat Ducato, we will show almost unlimited uses of our product groups: VLIGHT BASIC, VUNDERTECH, VSTRONG, VFLEX and V3D COMPOSITE.

Innovative, modular and affordable.

A COMPLETE NEW SENSE OF ROOM SPACE

Rear door covering, sliding door covering and D pillar covering can be created in one look. Individual wishes are any time feasible. **V3D COMPOSITE** is the up-to-date answer and stands out through less weight, high breathability and high noise reduction.

More about the product line **V3D COMPOSITE**

THE EXTRA ROOM SPACE PLUS

The intelligent and easy combination of the kitchen & bathroom modules created enough space. For the first time, two people can walk past each other without any problems.

THE WET ROOM OF A NEW GENERATION

With the help of **VUNDERTECH** Material we introduce colour. Boring was yesterday. The adaption to the overall look of the living room is now possible.

The entire wet cell is movable, removable and waterproof. A real "lightweight" thanks to the EPS core. The laminate guarantees a robust surface and leaves room for designers.

THE SLIDING AND REMOVABLE BATHROOM UNIT.

THE AUTOMOTIVE FEELING

More about product line **VFLEX**
vflex.voehringer.com

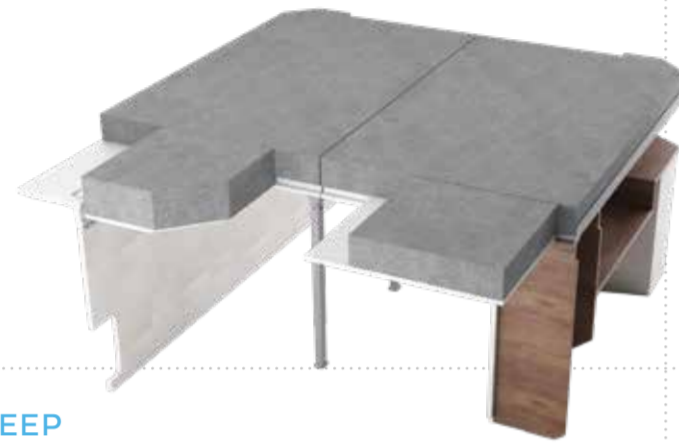

The usage of **VFLEX** is adding colour and form as well as an automotive feeling to the interior.

A visual adjustment to the sliding door, as well as rear doors and pillar covering is any time feasible.

PERFECT SLEEP

First time ever two lengthways beds feasible with two meter length in a six meter long base vehicle. Through sideways folding of the beds right and

left side you can achieve additional loading room which can be used during the day. Even the rebuild to a pure Transporter is now any time feasible.

DOWN TO "FLOOR" FLEXIBLE

VSTRONG enables an extremely resilient floor that can be tailored as a panel or completely CNC machined upon request. Also the cable channels can be implemented in the floor.

KITCHEN BLOCK ALSO AVAILABLE AS FLAT PACK.

LOTS OF SPACE WITH THE NEW TYPE OF KITCHEN

The products **VLIGHT BASIC** and **VUNDERTECH** ensure that the standardized kitchen unit is space-saving and easy to use.

The intelligent construction solution makes installation much easier and more efficient.

MY HOME IS MY WORKSTATION

Option: Implementation and integration of a mobile workstation with **VUNDERTECH**. Stable, versatile, particularly light and water-resistant. The use of this innovative material gives the height-adjustable workstation real added value.

A SIX-SEATER IF NEEDED

There is freedom of choice: If you prefer the Camper Van as a six-seater, you can deselect the wet room and replace it with a large cupboard or two additional seats, for example.

The individual seats are already equipped with the integrated rail system from Schnierle, seating system. An existing wheelchair can be attached directly to it.

NO TOOL COSTS FOR TRIM PRODUCTS. WE COVER THE TOOLING COSTS FOR ALL STANDARDISED TRIM PRODUCTS SUCH AS REAR DOORS, SLIDING DOORS AND D-PILLAR TRIM.

CONCEPTCAMPER 2021
 CONSTRUCTION

THE PREMIUM LIGHTWEIGHT SOLUTIONS BY VÖHRINGER

THE RIGHT CONCEPT
FOR EVERY PROJECT

VLIGHT BASICS covers a diverse and broad spectrum. Lamination. Wrapping. PU and furniture part production.

V3D COMPOSITE is sound-absorbing, breathable, has a pleasant feel and reduces weight.

VSTRONG has a very low weight per unit area and has an exceptionally high flexural strength and is water-resistant.

VUNDER TECH is very stable and can still be brought into a wide variety of shapes. It is very light and water-resistant.

VFLEX absorbs sound, is breathable, has a pleasant feel and is lightweight.
