# INSPIRATION PAPER 2022

# INTERIOR DESIGN CAN BE THIS INNOVATIVE, THIS DIVERSE AND THIS FLEXIBLE.

Our designer and developer presents ideas for future interior design of RVs and campers.

The basis of this development is the variety of materials of our **VLIGHT BASIC** and V.I.T. Vöhringer Innovation Technology product range.

The intelligent and innovative combination of different materials was casted into **VMODULES**.

Get inspired and challenge us with your vision of interior design. We are waiting for your call.

VMODUL / *Wardrobe*

## CLOSET WITH SPACE FOR A MOBILE CAMPING TOILET

The spacious closet offers enough space for a mobile camping toilet in the lower part. It is easy to remove and can easily be replaced by a wet room module.

VMODUL / *Bike stand*

## REMOVABLE BIKE STATION FOR TWO BIKES

The storage space in the rear can be equipped with a removable bicycle rack while driving.

Once arrived at the destination, it is parked next to the vehicle. This creates additional living space in the motorhome.

VMODUL / *Saddle bag*

## STORAGE SPACE AND SADDLEBAG IN ONE MODULE

Storage compartments integrated in the vehicle are simply removed from the rail anchorage and attached to the luggage carrier as a saddle bag. Equipped for the bike trip or shopping in no time.

VMODUL / *Dog box*

## MOBILE DOG BOX

The alternative to the bicycle station. In it, the four-legged friend travels safely and comfortably.

VMODUL / Sideboard box

## MULTIFUNCTIONAL SIDEBOARD BOX

Practical storage space that can be opened upwards and through a pull-out to the side.

Folding the table top upwards creates a work or dining space.

VMODUL / Workstation

## MY HOME IS MY WORKSTATION

The perfect home office space for on the go. By using the **VUNDER TECH** material, the height-adjustable workstation is a real lightweight, very easy to use and robust.

# V.I.T.

## VÖHRINGER INNOVATIONS TECHNOLOGY

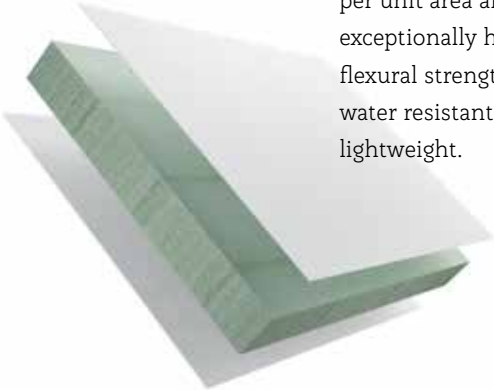

**VUNDER TECH** for furniture parts: is very stable and yet can be formed into the most diverse shapes. At the same time it is very light and water resistant.

**VFLEX** for flexibly applicable nonwoven elements: sound-absorbing, breathable, pleasant to the touch and lightweight.

**V3D COMPOSITE** for three-dimensional cladding: is sound-absorbing, breathable, has a pleasant feel and reduces weight.

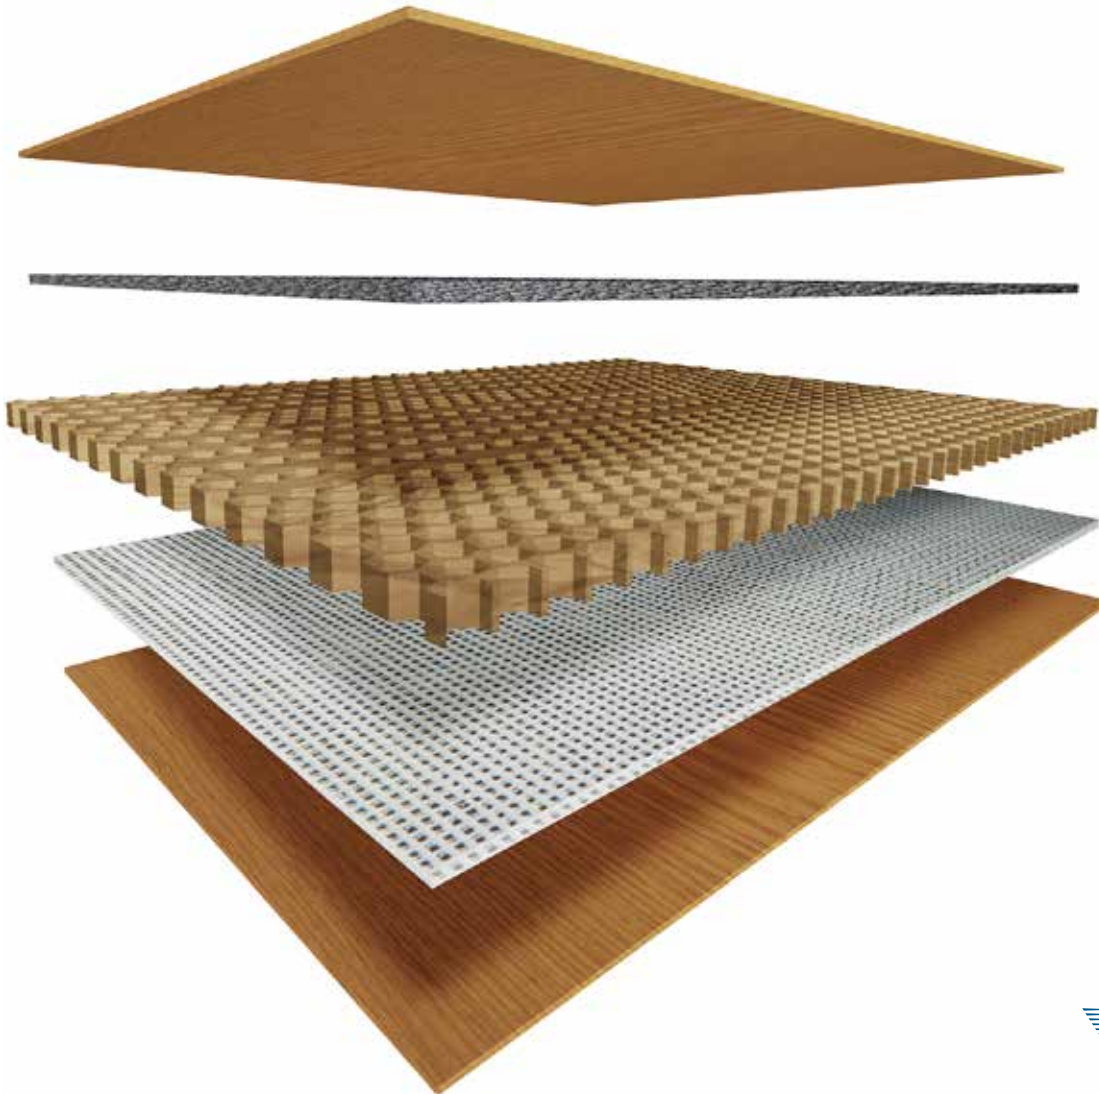

**VSTRONG** for floors: has a very low weight per unit area and has exceptionally high flexural strength, is water resistant and lightweight.

**OUR PRODUCTS SET NEW STANDARDS  
IN LIGHTWEIGHT CONSTRUCTION AND  
NOT ONLY FOR THE CARAVAN AND  
MOTORHOME MARKET.**

# VLIGHT BASICS

We are the specialist for coating panel materials. Our own furniture production for the international caravan and motorhome market has shaped us into the international system supplier and reliable partner of this industry worldwide. In this strong basic program we supply panel materials, profiles, furniture and construction parts mainly made of wood, but also of PU (polyurethane) and PET.

WITH VLIGHT BASICS,  
WE GUARANTEE THE  
VARIETY OF SHAPES IN  
LIGHTWEIGHT CONSTRUCTION  
BY COMBINING A WIDE  
RANGE OF MATERIALS.

## RESPONSIBILITY FOR THE FUTURE OF OUR PLANET

We will have completely climate-neutral production by the end of 2021.

We can already report initial successes in this area. By switching to green electricity and the intensive use of solar energy, we have already reduced CO<sub>2</sub> emissions by 45% today.

We are continuously working on reducing our energy consumption and cutting climate-damaging emissions within the supply chain.
